RE: KEY NOTES – ALUMNI NEWS

In the early years of Chi Epsilon, members often wrote back to the Editor sharing stories or facts about major accomplishments, promotions, awards or other honors. We’ve received poetry too! Members used these notes to let their friends and chapter members know where they were and what they were doing.

We believe these articles helped build and maintain a sense of community within Chi Epsilon. The national office is aggressively looking for opportunities to re-engage our alumni, one chapter and one member at a time.

You can help by encouraging your alumni to let you know what’s going on in their career and forwarding that information to the national office. Use this opportunity to connect with former members and get them actively involved with your chapter’s activities.

Don’t forget to obtain updated member contact information. Please summarize any information you receive and pass it along at the end of the semester / quarter.
